

| List of Ongoing Projects |   |
|--------------------------|---|
| S.No                     | Project Title   |
| 1                        | Preparation of nanosized Iron Oxide Pigments from Pickling Spent Liquid.  |
| 2                        | Design and develop a process for making Harness Leathers from wet salted Buffalo hides.   |
| 3                        | Evaluation of Extracts from Agricultural by-product (Areca Nut) for Leather Application   |
| 4                        | Conductance of Process Audit for Erode Tanners.   |
| 5                        | Value Added in Hide Processing & Pollution Attenuation  |
| 6                        | Preparation of Business Feasibility Report for Establishing a Gelatin Manufacturing Plant (using hide/skin) in India.                             |
| 7                        | Review of Project Report for Establishing a Pilot Tannery   |
| 8                        | Hazard & Operability (HAZOP) and Risk Assessment Study for the Fertilizer Manufacturing Facility of Coromandel International Limited, Ennore.     |
| 9                        | To study the electro-coagulation prototype developed by the client for the pre-treatment of tannery wastewater at lab and production environment. |
| 10                       | Vetting of Equipment specification for the establishment of Common Facility Centres for (i) 144 Micro Tanners and (ii) Shaving Scrap burners.     |
| 11                       | Leather material study for handicraft sector in India.  |
| 12                       | Optimization of antiviral/antibacterial chemical for leather application  |
| 13                       | Preparation of DPR for the establishment of the tannery for producing wet blue leather from skins at Cheelanahalli, Karnataka.                    |
| 14                       | Demonstration of Cleaner technologies for TDS reduction in Calcutta Leather Complex   |
| 15                       | Preparation of DPR for Building Biogas Bottling Plant for the Anaerobic Co-digestion of tannery sludge waste, food waste and vegetable waste.     |
| 16                       | Twinning II Extension Project- Leather Industry Development Institute (LIDI), Ethiopia  |
| 17                       | Development of Leather Sector in Andhra Pradesh   |
| 18                       | Twinning programme - Metal Industries Development Institute (MIDI), Ethiopia  |
| 19                       | Establishment of Trade Centre at Agra under ASIDE Scheme  |
| 20                       | Establishment of Testing Laboratory and Design Studio at Agra   |
| 21                       | Preparation of Adequacy Report for the Existing Primary Effluent Treatment Plants (PETPs) at Kanpur.  |

|    |  |
|----|--|
| 22 | Training programmes  |
| 23 | Testing of Two types of BCS  |
| 24 | Technical support in Product Development cum Training and Production facility capacity enhancement for Industrial Gloves and Leather Goods for Staff/Trainees of Durgapur Mahila Samaj, Durgapur, West Bengal. |
| 25 | Testing and Certification.   |
| 26 | skill upgradation programmes for rural leather artisans in gujarat (12 training programme each 2 months)   |
| 27 | Development of sustainable rubber based leather like materials.  |
